

CMS Pneumatic Injection System

Works with Standard Shop Air

No Power Needed

Foot Pedal Regulates Pressure

60 to 100 psig (4,1 to 6,9 bar g)

9 CFM (15 m³/h)

Designed for Maximum Portability

Compact Carrying Case

The CMS-2000 Pneumatic Injection System has a compact design that features a sturdy tool case for the injection cylinder and all the necessary hoses and connections. This system works on standard shop air allowing for maximum portability throughout the plant. The foot pedal regulates air pressure and is mounted on a removable plate that is disconnected to provide an easy to use system for injecting Chesterton® CMS compounds. No electricity is needed.
